A UAB expert's guide to the top tooth tech of 2022

No filling, no drilling: Dentists now can fix early cavities with resin, use bioactive materials to defend fillings from bacteria and print new retainers on demand. Learn what these innovations mean for patients and why the UAB School of Dentistry is a go-to destination for testing the latest.

Check out the 2022 UAB Football promo schedule 🏈

Starting with the College Football Kickoff Sept. 1 vs. Alabama A&M, UAB Football's 2022 home games at Protective Stadium include themes dedicated to families, teachers, service-members and more. Mark your calendars for each, including Homecoming, scheduled Oct. 8 vs. MTSU.

Fine-tune your listening ear

Join Elizabeth Vander Kamp, certified facilitator of Compassionate Listening and artist-in-residence with UAB Arts in Medicine, to explore the five practices of Compassionate Listening and discuss ways to apply them in every aspect of your life during a virtual seminar noon June 13.

New scholarship aims to create a diverse generation of nurse anesthetists ❤️

UAB alums Keshia Thurston, DNP, and LaDana Williams-Davis, DNP, have endowed a new scholarship to increase diversity in the field of nurse anesthesia by motivating and supporting underrepresented students at UAB.

From UAB Magazine

How UAB's Grand Challenge winner adapted during COVID

Live HealthSmart Alabama, the inaugural winner of UAB's Grand Challenge in 2019, had just begun to roll out when the pandemic hit Alabama. After pivoting to focus on providing communities with COVID-19 resources, the initiative now is re-centered on its original mission — proving that UAB is there to support local communities for the long term. ❤️

The Obesity Health Disparities Research Center will fund up to two secondary data analysis projects up to \$10,000 in areas related to obesity and health disparities. Concepts are due June 25; find details [online](#).

One more thing

Tuition assistance for dependents means more support throughout a long academic career

Fady Mikhail, professor of genetics and co-director of the Cytogenetics Laboratory, says the tuition assistance he received for his son, Karim, a sophomore in the Undergraduate Neuroscience Program and Early Medical School Acceptance Program, will help the Mikhail family to better support Karim during his years of studying: "With the tuition assistance and the scholarships he received at UAB for the first four years means we can help him more with the second four years." [Read the Mikhails' story](#) and learn how you can refer your child or any young person you know to UAB. 🎓
