Lauren Kole, M.D., associate professor in the Department of Dermatology, explains sunscreen types, how and when to apply, and what to do if a sunburn does occur.

The Civitan International Research Center requests proposals for $100,000 in pilot funds to foster interdisciplinary collaborations across more than one UAB department and subsequent MPI grant applications aimed at enhancing our understanding of typical and neurodevelopmental disabilities and malformations, impaired cognitive development and atypical brain development, autism spectrum disorders, intellectual disabilities, profound disabilities, and other neurodevelopmental conditions. Proposal deadline is 5 p.m. May 31.
